step 01

Base and Gas Cylinder Assembly

Put gas cylinder onto the base.

Assemble casters onto the base.

step 02

Backrest and Armrest Assembly

Assemble back-rest and tilt tightening bolts in order.
(C→D→E)
Tighten bolt using wrench (A).

step 03
Armrest Assembly

step 04
Base and Body Assembly

step 05
Headrest Assembly **

Assemble the headrest connector on the middle of the backrest frame and rotate the headrest upright.

Assemble arm-rests and back-rest using bolts (F) as above image. Tighten bolt using wrench (A).

Complete the assembly of the seat and armrests and then connect with gas cylinder by putting it into the hole of tilt mechanism underneath the seat.

Assembly following as above image is recommended.

When the base is assembled, cautiously stand the chair upright.

Assemble the head-rest and back-rest using bolts. Tighten bolts using the side marked with red dotted line.

Synchronized Tilt Mechanism & Seat

Weight Balance Tilt

Tilting tension of backrest would be adjusted according to user's weight.

Height Adjustment

Push up the flat lever on your right side to adjust the height. If you adjust the lever while standing, the seat goes up and the seat goes down while sitting.

Angle Adjustment

Backrest can be fixed at the preferred position by raising the lever upward on the left side. For unlocking, push the lever downward and slightly push the backrest backward. (Anti-shock function)

Headrest

Height Adjustment

Adjust the height by sliding the headrest up and down. Elastic tilting will add more comfort to this adjustable feature.

Lumbar Support

Height Adjustment

Adjust the height by putting the lever up and down.

Armrest

Height Adjustment

Adjust the height while pushing the buttons underneath the arm pad.

Forward&Backward Adjustment

Arm pads can be adjusted in front and back.

Sideways Adjustment

Arm pads can be adjusted in sideways.

Seat

Depth Adjustment

Adjust the seat depth by pulling the lever underneath your right-side seat. While pulling the lever, you can slide the seat forward to make it deep. To return to the original position, slightly stand up and pull the lever again.

Warning

01. Do not use the chair for the purpose other than it originally meant to be.
02. Please be advised that the warranted weight capacity of the chair is 113kgs or less.
03. If you put excessive impact on the chair while tilted, it may be damaged.
04. Leaning on unfolded chair from behind could fold the chair and lead to injuries.
05. Do not press the backrest while someone is seated on the chair.
06. Do not push the chair when someone is seated.
07. Please do not use each chair more than two person.
08. Take care to avoid inserting your feet into the spaces of the seat.
09. Excessive weight may result in overturn and cause damage.
10. Do not put or insert your finger into any part of the chair.
11. Do not put your finger into the gap of the chair.
12. Avoid using the product while front of the seat is lifted.
13. When seating, please do not tilt your body left/right excessively.
14. Do not use the chair for exercise such as push-ups.
15. Do not throw the chair.
16. Do not kick the chair.
17. Do not walk across the chairs.
18. Please get full knowledge for usage of the chair beforehand for more proper use.
19. We do not apply any warranty for any possible injuries, dangers and damages caused by neglect of the above warnings.
